

## Task 1: Propose mitigation strategies

Refer to updated Excel file

It seems like I can't do more advanced data analysis right now. Please try again later.

However, I can give you the exact text to manually insert into your risk register for the **Contingency Plan** column for each high-priority risk. Here's what you can copy and paste into your Excel file:

---

## Task 2: Document contingency plans

### Contingency Plans for High-Priority Risks

- **HF-R001**  
*If a data breach occurs, isolate affected systems immediately, notify IT security, and initiate root cause analysis. Apply emergency fixes and notify stakeholders.*
  - **HF-R002**  
*If staff resistance continues, deploy departmental change champions. Offer additional hands-on support and revise training strategies.*
  - **HF-R003**  
*If scheduling system fails or causes delays, revert to manual scheduling as a backup. Prioritize urgent cases and engage IT to resolve issues quickly.*
  - **HF-R004**  
*If wait times do not improve, increase front-desk staffing during peak hours and expand virtual consultation slots to redistribute load.*
- 

## Task 3: Update Risk Mitigation Plan
